Career Objective

A motivated computer and Systems engineering student, eager to apply strong problem-solving and programming skills to real-world software development challenges. Looking for opportunities to contribute to impactful projects and grow as a future Computer engineer.

Education

Bachelor of Computer and Systems Engineering (October 2023 - exp: June 2028)

Alexandria University, Egypt

CGPA: 3.98 / 4.00

High School Diploma

Graduated with Honors — 95.7%

Projects

Clinical Management System

Developer

Technologies: C, UML (Use Case Diagram, Sequence Diagram)

- Developed a clinical management platform to streamline patient record handling.
- Designed system interactions and workflows using UML diagrams.
- Simplified for doctors, patients, admins, and accountants to ensure ease of use.
- Used file handling in C to securely manage and store patient and system data.
- Improved hospital resource organization and reduced manual errors.

Courses

-
- React Front-end Web Development Track by DEPI (June 2025 – Dec 2025)
 - Problem solving course by ACM Alexandria student chapter (June 2025 – august 2025)

Skills

Technical Skills

- Programming: C, C++, Java, Python, HTML, CSS, JS
- Tools: Git/Github, VS Code
- Diagrams: UML (Use Case, Sequence)

Soft Skills

- Problem Solving
- Critical Thinking
- Time Management
- Team Collaboration

Languages

- Arabic – Native
- English – Fluent
- French – Good

Volunteering

Logistics Volunteer – ACM Alexandria Chapter

Alexandria University | 2024 – Present

- Coordinated logistics for university ACM events and helped in organizing tech events.
- Gained hands-on experience in team coordination and event planning.
